CAREER OBJECTIVE

I am an aspiring .Net, JavaScript and Python developer and hope to excel my career in this exiting arena. I believe I can learn fast and able to achieve success for the organization by pursuing cutting edge technologies both individually and as a team worker.

UNIVERSITY PROJECTS

➤ **Built a create, read, update, delete (CRUD) application** using **C#** and **.NET** framework for a sports shop where customers can browse different category of products and can add or remove any product from their cart. Using **Entity Framework Core** and **Code First** technique, database migration is done, and services are configured.

➤ **Developed an ERP software (JavaScript based)** for managing employees of a company. Various sorts of information (personal, career etc.) are managed by the database and employees can register by email confirmation using **push notification**.

➤ **Built a hybrid news app using React-native and firebase,** where news is posted after they are fetched from hacker news API. People can register & login. People can also comment on news posts. Also, comments are justified for sentiment analysis whether they are good or bad using Google's natural language processing API.

➤ **FINAL YEAR RESEARCH WORK (BSc.)** Developed a Bengali Handwritten Digit Recognition System. Using Python's most recent library, **TensorFlow** and **Keras**, an **A.I. model** (**Neural Network** based) was built and trained. The update values of the model are used to develop applications in web (**JavaScript**) & mobile(**android**) platform.

Git link for my projects, https://github.com/sajibgoswami11.

COMPUTER ENGINEERING SKILLS

1. Strong knowledge of object-oriented programing and application development using: **Microsoft WinForms, C#, .Net, ASP.Net, Python.**
2. Database: **SQL, MongoDB.**
3. Full stack web development: using **JavaScript, PHP**.
4. Other Languages: **C, C++, Java, Android Java, MATLAB**

OTHER QUALIFICATIONS

1. **Training for Trainers (TOT Android)** - ICT certificate from ICT division, Govt. of Bangladesh.
2. Proficient in Microsoft Office tools (**Word, Excel and PowerPoint** etc.).
3. A Raspberry-Pi hobbyist and worked in some small projects.
4. A good communicator and proficient in all the four language skills, both in English and Bengali.

PERSONAL INFORMATION

Date of Birth: 1st August 1994
